OPERATING INSTRUCTIONS

PLUG-AND-PLAY SETUP

1. Connect the webcam to your computer using the USB cable.
2. Wait for your computer to recognize the webcam (no driver installation needed).
3. Open your desired video conferencing or recording software and select the Ultra 2K Webcam as the video input.

ADJUSTING THE WEBCAM

- Tilt or rotate the webcam head for optimal framing.
- Use the 360° swivel feature to change the orientation as needed.

USING THE FEATURES

AUTOFOCUS AND AUTO LIGHT BALANCE

- The webcam automatically focuses on your face and adjusts brightness based on ambient lighting for clear visuals.
- No manual adjustment is required.

PRIVACY COVER

- Slide the privacy cover over the lens when the webcam is not in use.
- This provides additional security in high-privacy environments.

BUILT-IN MICROPHONE

- The built-in microphone captures clear audio and filters out background noise.
- Speak within 10 meters for the best audio clarity.

COMPATIBILITY AND SUPPORTED SOFTWARE

The Ultra 2K Webcam is compatible with the following:

Category	Supported
Operating Systems	Windows 7/8/10/11, macOS, Chrome OS, Android 7.0 or higher
Software	Zoom, Skype, Google Meet, Microsoft Teams Facetime, GoToMeeting

TROUBLESHOOTING

Problem	Solution
Webcam not detected	Ensure the USB is properly connected. Restart your computer.
Blurry video	Clean the lens with a soft cloth. Check if autofocus is enabled in your settings.
No audio from the microphone	Confirm the microphone is selected as the input device in your software settings.
Poor video quality	Check lighting conditions. Ensure proper resolution settings in your software.
Privacy cover stuck	Gently slide the cover to ensure it's not obstructed by debris.
